APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

	irned to applicant for correction
Corı	rected application filed
	The applicant Newmont Gold Company
	P.O. Box 669 of Carlin Street and No. or P.O. Box No. City or Town
	Nevada 89822 hereby make application for permission to change th
	point of diversion and place of use of a portion Point of diversion, manner of use, and/or place of use
of w	vater heretofore appropriated under Permit 54335 (Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and
denti	fy right in Decree.)
1.	The source of water is
2.	The amount of water to be changed 1.2 283 mga. Second fect, acre feet. One second foot equals 448.3 gallons per minute.
	The water to be used for mining, milling, and domestic Irrigation, power, mining, industrial, ctc. If for stock state number and kind of animals.
	The water heretofore permitted for mining, milling, and domestic Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
	The water is to be diverted at the following point NE of SE
	5 small diameter production wells distance to a section corner. If on unsurveyed land, it should be stated.
6.	The existing permitted point of diversion is located within NE of SE Section 31, T36N, R50E, MDM at a point from which the SE corner of said If point of diversion is not changed, do not answer section 31 bears S 19° 08' 26" E a distance of 2,078 feet
7.	Proposed place of use Sections 17, 20, 31, and 32, T36N, R50E, MDM Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.
8.	Existing place of use. Sections 31 and 32, T36N, R50E, MDM. Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/o
	manner of use of irrigation permit, describe acreage to be removed from irrigation.
9.	Use will be from January 1 to December 31 of each year Month and Day
10.	Use was permitted from January 1 to December 31 of each year Month and Day Month and Day
	Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans an
	specifications of your diversion or storage works.) 5 drilled and cased (6") wells equipped with State manner in which water is to be diverted, i.e., diversion structure, ditche
	specifications of your diversion or storage works.) 5 drilled and cased (6") wells equipped with State manner in which water is to be diverted, i.e., diversion structure, ditche motor, pump, and flow/totalizing meter pipes and flumes, or drilled well, etc.

14.	Estimated time required to complete the application of water to beneficial use10 years
15.	Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.
	Because of Genesis mine ore production requirements and the structurally
	complicated nature of the aquifer to be dewatered, single large (12" - 14"
	diameter) dewatering wells have proven ineffective and too expensive. Small (6"
	diameter) wells are expected to be more effective for dewatering at Genesis.

	APPROVAL OF STATE ENGINEER
portise under here instructed meter comparing state of the comparing specific protests of the control of the co	This is to certify I have examined the foregoing application, and do hereby grant the same, subject to the following tations and conditions: This temporary permit to change the point of diversion and place of use of a cion of the waters of an underground source as heretofore granted under Permit 54335 issued subject to the terms and conditions imposed in said Permit 54335 and with the extanding that no other rights on the source will be affected by the change proposed win. The well shall be equipped with a 2-inch opening and a totalizing meter must be called and maintained in the discharge pipeline near the point of diversion and trate measurements must be kept of water placed to beneficial use. The totalizing are must be installed before any use of the water begins or before the proof of eletion of work is filed. If the well is flowing, a valve must be installed and tained to prevent waste. This source is located within an area designated by the ex Engineer pursuant to NRS 534.030. The State retains the right to regulate the use the water herein granted at any and all times. This Temporary Permit does not extend the permittee the right of ingress and egress sublic, private or corporate lands. The issuance of this temporary permit does not waive the requirements that the it holder obtain other permits from State, Federal and local agencies and is difficulty issued contingent upon approval by the Nevada Division of Environmental section of the dewatering project. This temporary permit is issued subject to the water management plan and water agement plan addendum among Barrick Goldstrike Mines, Inc.; Newmont Gold Company; and Ranch Joint Venture dated May 1, 1989. TINUED ON PAGE 2) amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to educate the proper second.

(PERMIT TERMS CONTINUED)

Any water obtained as a result of the dewatering operation of Barrick Goldstrike Mines, Inc. or Newmont Gold Company shall be used first by the permittee for mining, milling, heap leaching, drilling, road watering and other related mining and milling uses hereinafter referred to as mining and milling uses within the described place of use and prior to any use of the water authorized under Permits 49960, 50567, 50688, 50939, 51074, 51750, 51963, 52354, 52795, 52796, 52797, 52999, 53000, 54156-T, 54212-T, 54213-T, 54304-T, 54306-T, 54307-T, 54335, 54336, 54337, 54338, 54410-T, 54598-T, 55315-T, 55316-T, 55317-T and 55318-T.

The total amount of water under the above mentioned permits shall not exceed 2,000 million gallons annually.

The State Engineer retains the right to regulate the pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights.

A monthly report shall be submitted to the State Engineer within 10 days from the end of the month which shall include the amount pumped from each well and the amount used for each mining and milling purpose.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on October 2, 1991 at which time all rights herein granted shall revert to the right being changed by this temporary permit.
